PROFILE

I'm a Software Engineering student focused on AI, web development. I enjoy learning new technologies, solving problems, and creating clean interfaces that feel intuitive to use. Alongside frontend work, I have a solid grounding in Python and Java, which I use for backend logic, data handling, and general problem-solving. I'm currently studying Software Engineering Technology (Artificial Intelligence) at Centennial College and developing projects that strengthen my skills across the full stack.

SKILLS

- HTML, CSS & JavaScript
- Quick learning & adaptability
- Python
- Java
- Team collaboration & communication
- Backend development fundamentals
- Building intuitive, user-friendly interfaces
- Data handling & accuracy
- Problem-solving & debugging
- Attention to detail

EXPERIENCE

Data Analyst 2025 – 2026
Victory Bilingual Nursery & Primary School — Douala, Cameroon

- Organized and maintained daily records with strong attention to detail.
- Helped staff and visitors with questions in a friendly, professional manner.
- Followed safety and cleanliness routines consistently.
- Worked closely with the team to complete tasks efficiently.
- Built habits around accuracy that support both data and development work.

LANGUAGE

- English
- French

EDUCATION

Software Engineering Technology (Artificial Intelligence)
Centennial College — Toronto, Ontario
September 2026 – Present (Expected graduation September 2028)

Bachelor of Technology in Software Engineering
University of Bamenda — Bamenda, Cameroon
Graduated July 2025

Higher National Diploma (HND) in Software Engineering
Institut Universitaire Des Grandes Écoles Des Tropiques — Douala, Cameroon
Graduated June 2023
